Dear Sir:-

I am a soldier who has been returned to Canada a few weeks ago. I was under the impression that I would be given my discharge, and so be able to continue my course at S.P.S. after Xmas. But we are now given to understand that all A, men are to be kept indefinitely for garison duty. I have never been to France but I am a volunteer, enlisting this spring, first after I had tried my examinations. I did not come under the M.S.A.

I am told that students are to be discharged, but I do not know how to go about it to get mine. And as I would like to continue my course after Xmas, as every year

Sir Robert Falconer,

Toronto, Ont.

Sir,-

A number of the young ladies employed at the Parliament Buildings are anxious to organize a swimming club during the summer months.

I have been requested to inquire of you if it would be possible to secure permission for the ladies to use the swimming pool at the School of Domestic Science at the corner of Avenue Road and Bloor Street, which we understand is under your direction.

Trusting that you will be able to approve this request,

Yours faithfully,

A. Clarion Fox.

My dear Mr. Francis:

I am very glad to know that you are to have a reception for Mitchell on his way through Montreal, and I am confident that it will be a very happy occasion. I am afraid, however, that it would be impossible for me to go to Montreal as my time during the next two weeks is fully occupied, partly with the coming Commencement exercises, that I cannot leave the city.

I would have answered you earlier but I was in Ottawa for two days and only got home on Saturday morning. Wishing you a very successful and enjoyable evening,

I am,

Yours sincerely,

President.

Dear Mr. Francis:

I have no further information about Colonel Mitchell, except that I am rather expecting him before the 6th of June. I am afraid that all June I will be so fully occupied that I could not go to Montreal.

Yours sincerely,

President.

Dear Sir:

I am very sorry about your daughter, but I have looked into the matter with the Registrar and I am glad to say that I am able to report to you that there is no need of your daughter worrying about her degree. She will get her degree, though possibly we may send her one or two papers in order that she may formally write upon them. The greater difficulty will be with regard to the specialist standing with the Department of Education. However, the University will take that up and will do its best to secure specialist recognition for her.

Yours sincerely,

President.
